

Cricket Scoreboards

Years of experience

ESU had installed cricket scoreboards with displays using incandescent light bulbs from the 1970's but their first truly electronic scoreboard was installed in 1989, long before the competition. Now using the latest high brightness LED displays in a huge variety of scoreboards, we have built an enviable reputation across the country (and beyond) for quality, reliability and excellent service. Whether you need a scoreboard for your village club or one for a test venue ESU can help.

Standard Scoreboards

ESU manufacture a range of standard boxed scoreboards from 9 - 22 digits which caters for the requirements of many clubs. Housed in a powder coated aluminium enclosure fitted with an anti-glare and vandal resistant polycarbonate front these are simply mounted on a wall or posts and require no specialist installation. Additional security can be provided with a roller shutter.

We can also provide custom boxed scoreboards . . .

Cricket Scoreboards

Traditional Scoreboxes

This is our passion! Over the years we've designed, built and refitted just about every size, shape and layout of scoreboard imaginable. Whether you have an existing scoreboard that can be simply converted or an empty piece of ground and need a new build - we've done it. We can replace an old fascia with a new one, often allowing more information to be displayed than the original. Small or large, quality is assured.

Bespoke Service

At ESU we understand that sometimes our customers need something different and, as we have control over the engineering, software and manufacture of the equipment we can offer a custom solution. We have multi-purpose categories so that Duckworth Lewis can be displayed when needed or show Overs Left when the rain stays away. We can make our scoreboards operate with other manufacturers equipment and also provide roller shutters and building works as required.

Second to None

With our experience, our commitment to quality and our outstanding service you will not find a better or more capable supplier. Here is real feedback from three clubs - feel free to contact any of our customers to confirm our reputation.

We have been very happy with the scoreboard and have had many admiring comments about it this year. We have been happy to let them know you supplied it and will continue to spread the word.
Trevor Scott, Chairman Hailsham CC

The scoreboard has been superb, a great addition to our facilities, we haven't had any problems at all with it.

Dave O'Connell, Treasurer, Buttershaw St Pauls CC

It has been a real pleasure dealing with ESU, and we now have a state-of-the-art scoreboard facility that has excited everyone in the Club. The installation was first class, and care was taken to make everything ship-shape and watertight. The scoreboard is even better than we expected, and we hope to have this facility for many years to come.

John Irvine, Mainsforth CC
