

## Rugby & Hockey Scoreboards

With more than 30 years experience ESU provides scoring and timing solutions for all sports. Our range of scoreboards designed for rugby, hockey and other field sports are constructed in durable powder coated aluminium enclosures (finished black as standard but other RAL colours available to order) with a tough 4mm polycarbonate front panel which is vandal resistant and protects the displays from ball impact. Where the panel is lettered or decorated the vinyl is internally applied to avoid damage or removal and the front surface has an anti-glare finish to avoid reflections in bright sunlight. Operated by radio remote control, with a range of up to 150m, the scoreboards run from the mains as standard (delivered with a 13A plug fitted) but battery powered options are available. Standard models are fitted with high brightness 305mm amber LED digits visible to 180m but custom designs using larger digits can provide a greater viewing distance. Mounting brackets are supplied for easy installation of the scoreboards onto a wall or posts. The entry level scoreboard is the **ESU4RH12**:

Home and away scores 0 to 99. Dimensions 875mm x 665mm x 120mm approx 20kg

**£1550.00 + VAT and delivery**

Signs available separately.

**£1995.00 + VAT and delivery**

The **ESU8RH12** adds timing functions to the basic scoreboard. Capable of displaying the time of day or counting minutes and seconds in either up or down mode plus home and away scores 0-99. Dimensions 1300mm x 1050mm x 120mm. Approx. 30kg. Legend shows HOME & AWAY as standard - variations available on request.

## Custom Rugby & Hockey Scoreboards

When the standard models aren't suitable or if something special is required we can produce custom designs.

FROM £2000+VAT

With a variety of shapes, sizes, layouts and colours we can produce your ideal scoreboard at a reasonable cost.

## ESURHP10

If you need more than just numbers then our top of the range model gives you scores, clock and timer functions plus programmable team names. The team name feature is easy to use - a list of names is downloaded into the scoreboard using a USB drive and then the desired names picked from the list using the standard remote control.
